CLIENT OR PROJECT

SUBTITLE LINE

COURSE, MODULE OR CHALLENGE

The one sentence that is the answer, not the topic

A second line that says what the next minutes deliver,
in plain words.

TEAM

Given Name Surname, Given Name Surname, Given Name Surname

GROUP

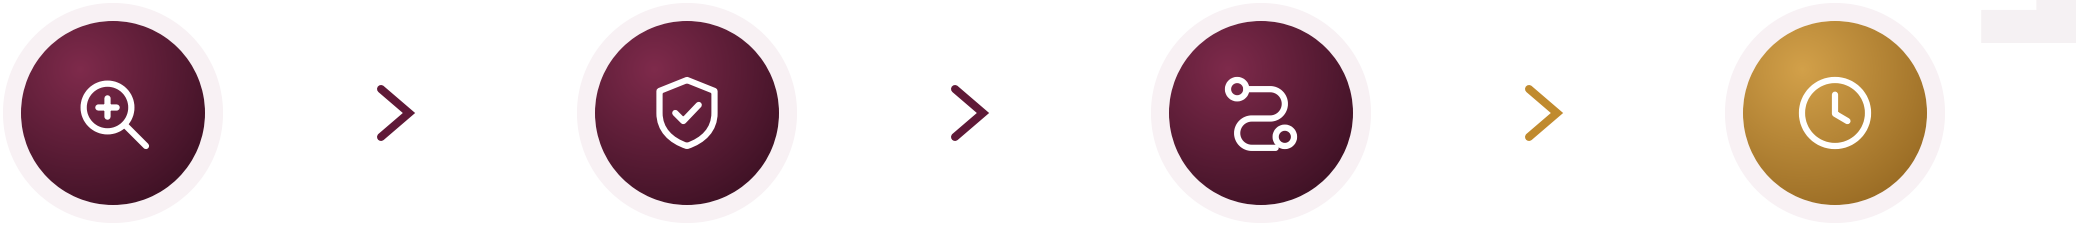

Programme, Group

EDHEC BUSINESS SCHOOL

Q1 SECTION NAME

The action title states the finding, so the slide can be read without you

THE QUESTION THIS BLOCK ANSWERS

FIRST STEP

One short line of support

SECOND STEP

One short line of support

THIRD STEP

One short line of support

THE CAVEAT

Accent colour marks a warning

A SECOND QUESTION, ANSWERED IN BULLETS

- One statement per bullet, roughly ten words
- Every bullet carries an icon from the library
- No trailing clauses that only restate the point
- Keep the count even so the block stays square

The closing band repeats the one thing the audience should remember.

Q2 SECTION NAME

Comparisons belong in a table with a verdict column

HOW DO THE OPTIONS COMPARE ON THE SAME CRITERIA?

CRITERION	OPTION ONE	OPTION TWO	BETTER FIT
First criterion	What option one does	What option two does	Option one
Second criterion	What option one does	What option two does	Option two
Third criterion	What option one does	What option two does	Option one
Fourth criterion	What option one does	What option two does	Neither

A neutral note: the blue strip carries a qualification that supports the argument.

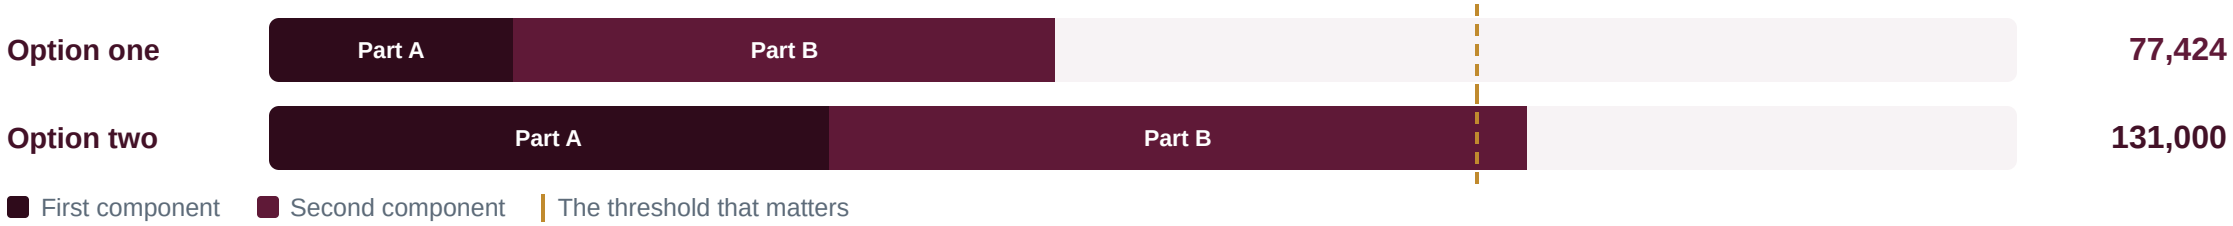

A warning note: the warm strip is reserved for a genuine caution, at most once per slide.

Q3 SECTION NAME

Put the three numbers that decide it above the detail that proves it

3

WHAT DOES EACH OPTION COST?

EUR 00,000

What this number is

00 months

What this number is

00 %

The one in the accent colour is the one that decides

Q4 SECTION NAME

A plan is phases with gates, not a list of activities

WHAT HAPPENS, AND WHAT HAS TO BE TRUE BEFORE THE NEXT PHASE?

WEEKS 1 TO 2

What happens in this phase, in one or two sentences of equal length to its neighbours.

Gate What must be true to continue

WEEKS 3 TO 6

What happens in this phase, in one or two sentences of equal length to its neighbours.

Gate What must be true to continue

MONTHS 2 TO 6

What happens in this phase, in one or two sentences of equal length to its neighbours.

Gate What must be true to continue

WHAT CHANGES UNDER EACH SCENARIO?

First driver	Second driver	The real constraint
SOLUTION Two lines, so every cell in the row is the same height.	**SOLUTION** Two lines, so every cell in the row is the same height.	**SOLUTION** The accent column is the one that limits the others.
ORGANISATION Two lines, so every cell in the row is the same height.	**ORGANISATION** Two lines, so every cell in the row is the same height.	**ORGANISATION** Two lines, so every cell in the row is the same height.

OUR RECOMMENDATION

The recommendation in one line, in the words you want repeated

EUR 00,000	EUR 00,000	EUR 00,000	EUR 00,000
What it costs	What it returns	Net value	What we ask for today
